

We are the regional leadership forum by which businesses develop strategic and actionable solutions

For nearly 100 years, we have made business growth our North Star, earning us a reputation as the region's business voice and a champion for business concerns.

Our members are the region's elite businesses. We also believe that the best solutions arrive when our partners in the academic and philanthropic community are at the table with business. We engage regional leaders and experts into a membership that shares its collective wisdom and best practices, which in turn, results in a stronger, better region.

Our full-time Government Advocacy staff takes on member and regional challenges at the local, state, and federal levels. We are the most impactful business advocate in the Commonwealth because our work focuses on solutions and opportunities for our members and the region.

We Represent **500,000** member employees
